

## Permanent Magnet Alternator (YAF-54)

**Introduction:** This kind of alternator is usually applied to the Tractor, Reaper, and Small wind generator etc. When the alternator working, it will produce the electrical current, to charge the storage battery.

Working Speed	Output Voltage	Output Current	Load
rpm	V	A	$\Omega$
1500	9	3	3
2000	12	4	3
3000	18	6	3
